

Past years' demonstrations have included:

Glow Germ Club members demonstrated the importance of proper hand washing.

Chemistry Color Changes Club members demonstrated how different chemicals produce different colors.

Cool Anatomy Students got to feel what the brain, heart, and eyes feel like. Human skeletons were also introduced.

Paleontology Discovery Students participated in a skull and fossil contest with cool prizes.

Animal Zone Students were presented with live animals, including a ball python, tiger salamanders, and box turtles.

Botany at its Best Students viewed several plants & discussed their similarities and differences.

Microorganism Madness Students viewed microorganisms under the microscope.
